This report is not complete unless all pages, as noted below, are included. Please read the information in the 'Important Disclosures' found at the beginning of this report.

Investments are not FDIC - insured, nor are they deposits of or guaranteed by a bank or any other entity, so they may lose value.

Important Disclosures

Figures shown are past results and are not predictive of results in future periods. Current and future results may be lower or higher than those shown. Share prices and returns will vary, so investors may lose money. Investing for short periods makes losses more likely. For more current information and month-end results, visit americanfunds.com.

Regular investing does not ensure a profit or protect against loss. Investors should consider their willingness to keep investing when share prices are declining. Market indexes are unmanaged and, therefore, have no expenses. Investors cannot invest directly in an index. Results for the Lipper indexes do not reflect sales charges. There have been periods when the fund has lagged the index.

This illustration must be preceded or accompanied by the fund's current summary prospectus or prospectus, which details charges, expenses, investment objectives and operating policies. The American Funds are distributed by American Funds Distributors, Inc.

Investment results assume all distributions are reinvested and reflect applicable fees and expenses. Expense ratios are as of each fund's prospectus available at the time of publication. The expense ratios for American Funds Corporate Bond Fund and Class F-3 shares are estimated. When applicable, investment results reflect fee waivers and/or expense reimbursements, without which results would have been lower. Please see americanfunds.com for more information. For the funds and/or share classes listed below, the investment adviser is currently reimbursing a portion of the funds' fees or expenses, without which the results would have been lower and net expense ratios higher.

- American Funds Retirement Target Date Series funds: Class F-3 shares (through at least April 7, 2018)
- American Funds Developing World Growth and Income Fund, American Funds Global Balanced Fund and American Funds Inflation Linked Bond Fund: Class R-2E and R-5E shares (through at least April 7, 2018)

- AMCAP Fund: Class R-5E shares (through at least May 1, 2018)

- American Funds Tax-Exempt Fund of New York: all share classes (through at least October 1, 2018)

The investment adviser may elect at its discretion to extend, modify or terminate the reimbursements at that time. Please see each fund's most recent prospectus for details. The expense ratios for the College Target Date Series, Target Date Retirement Series and Portfolio Fund Series include the weighted average expenses of the underlying funds. Please see the fund's most recent prospectus for details.

The fund does not assess redemption fees. However, shareholders redeeming shares may be subject to the fund's Purchase Blocking Policy as described in the prospectus.

The illustration included herein does not reflect the effects of taxes in some or all of the investments.

If the results shown on the following pages do not reflect deduction of an initial sales charge (i.e. they are at net asset value), please note that they would have been lower if the sales charge had been deducted.

Class A shares are subject to an up-front maximum sales charge of 5.75% for equity funds and most Portfolio Series funds, 3.75% for most fixed income funds and American Funds Tax-Advantaged Income Portfolio, and 2.50% for Intermediate Bond Fund of America, Short-Term Bond Fund of America, American Funds Short-Term Tax-Exempt Bond Fund, Limited Term Tax-Exempt Bond Fund of America, American Funds Preservation Portfolio and American Funds Tax-Exempt Preservation Portfolio. There is no initial sales charge on purchases of \$1 million or more. A 1% contingent deferred sales charge (CDSC) may be assessed if a redemption occurs within 18 months of purchase. Results on the following pages reflect deduction of the CDSC if the investment is \$1 million or more and a withdrawal is selected within 18 months of purchase. Certain withdrawals before age 59 1/2 may be subject to income tax and, if applicable, to a 10% federal penalty. For current information and month-end results, visit americanfunds.com.

The return of principal for bond funds and for funds with significant underlying bond holdings is not guaranteed. Fund shares are subject to the same interest rate, inflation and credit risks associated with the underlying bond holdings.

Investing outside the United States involves additional risks, such as currency fluctuations, periods of illiquidity and price volatility, as more fully described in the prospectus. These risks may be heightened in connection with investments in developing countries.

Higher yielding, higher risk bonds can fluctuate in price more than investment-grade bonds, so investors should maintain a long-term perspective.

- The A/529-A share 1, 5, and 10-year return for each fund is based on the MOP value.
- The "Average annual return on the investment" is based on the initial investment and the breakpoint chosen.
- Cumulative Volume Discount Reflected Where Applicable in This Illustration.
- NOTE: Systematic Accumulation Plans cannot assure a profit or protect against loss in declining markets.
