This report is not complete unless all pages, as noted below, are included. Please read the information in the 'Important Disclosures' found at the beginning of this report.

Investments are not FDIC - insured, nor are they deposits of or guaranteed by a bank or any other entity, so they may lose value.

Important Disclosures

Figures shown are past results and are not predictive of results in future periods. Current and future results may be lower or higher than those shown. Share prices and returns will vary, so investors may lose money. Investing for short periods makes losses more likely. For more current information and month-end results, visit americanfunds.com.

Regular investing does not ensure a profit or protect against loss. Investors should carefully consider investment objectives, risks, charges and expenses. This and other important information is contained in the fund prospectuses, summary prospectuses, CollegeAmerica Program Description and ABLEAmerica Program Description, which should be obtained from a financial professional and should be read carefully before investing. Market indexes are unmanaged and, therefore, have no expenses. Investors cannot invest directly in an index. Results for the Lipper indexes do not reflect sales charges. There have been periods when the fund has lagged the index.

This illustration must be preceded or accompanied by the fund's current summary prospectus or prospectus, which details charges, expenses, investment objectives and operating policies. The American Funds are distributed by American Funds Distributors, Inc.

Investment results assume all distributions are reinvested and reflect applicable fees and expenses. Expense ratios are as of each fund's prospectus available at the time of publication. The expense ratios for Class F-3 and ABLE-A shares are estimated. When applicable, investment results reflect fee waivers and/or expense reimbursements, without which results would have been lower. Please see americanfunds.com for more information. For the funds and/or share classes listed below, the investment adviser is currently reimbursing a portion of the funds' fees or expenses, without which the results would have been lower and net expense ratios higher.

The expense ratios for the College Target Date Series, Target Date Retirement Series and Portfolio Fund Series include the weighted average expenses of the underlying funds. Please see the fund's most recent prospectus for details.

As compensation for its oversight and administration, Virginia529SM receives a quarterly fee accrued daily and calculated at the annual rate of 0.10% on the first \$20 billion of the net assets invested in ABLEAmerica and CollegeAmerica in the aggregate and 0.05% on net assets between \$20 billion and \$100 billion. This fee applies to both Class 529 and Class ABLE-A shares. Additional breakpoints apply to assets in excess of \$100 billion. Virginia529SM is currently waiving the fee with respect to ABLEAmerica assets. This waiver will be in effect through at least July 1, 2019.
