To All,

Like the panhandlers of the California Gold Rush, today's media buyers and consumers of online video are sifting through the vast amounts of common video content to find something worth watching.

One small company taking advantage of this phenomenon is Vidable, Inc. (OTCBB: VIBE). The Company is a local e-commerce marketplace that connects buyers to sellers through posted online videos. Fully 62% of online 25-34 year olds and 57% of 35-44 year-olds use online classified ads, compared with 49% of online 18-24 year olds and 48% of online 45-54 year olds.

The online advertising industry has its eyes on online video, the fastest-growing digital ad format. eMarketer expects online video ad spending to reach \$2.2 billion by year's end, up 52.1% from 2010. By 2015, it will account for \$7.1 billion in online ad spending.

I see the shares in VIBE doubling or tripling over the next week. Longer-term, if you're prepared to sit on your stock, these shares could multiply your money about 10 times. But you have to get in now.

Get in now!
