- 1) Record cleared checks. Place a check mark (✓) next to checks that have cleared.
- 2) Identify outstanding checks. (Those are the checks *without* the check marks!) Write the outstanding checks in the area above labeled [Checks Outstanding].
- 3) Record deposits confirmed. Place a check mark next to the deposits that have been confirmed.
- 4) Identify deposits in transit. (Those are the deposits without the check marks!) Write the deposits in transit in the area above labeled [Deposits in Transit]. In practice, it is rare that you will have deposits that have not been confirmed.
- 5) Look for transactions that were accidentally left out of the check register! (These are the items that will sometimes make it difficult to reconcile.)
- 6) Reconcile!
