This report is not complete unless all pages, as noted below, are included. Please read the information in the 'Important Disclosures' found at the beginning of this report.

Investments are not FDIC - insured, nor are they deposits of or guaranteed by a bank or any other entity, so they may lose value.

Important Disclosures

Figures shown are past results and are not predictive of results in future periods. Current and future results may be lower or higher than those shown. Prices and returns will vary, so investors may lose money. Investing for short periods makes losses more likely. If a sales charge had been deducted, the results would have been lower. For more current information and month-end results, visit capitalgroup.com.

Regular investing does not ensure a profit or protect against loss. Investors should consider their willingness to keep investing when share prices are declining. Investors should carefully consider investment objectives, risks, charges, and expenses. This and other important information is contained in the fund prospectuses, summary prospectuses, ABLEAmerica Program Description and CollegeAmerica Program Description, which can be obtained from a financial professional and should be read carefully before investing. Market indexes are unmanaged and, therefore, have no expenses. Investors cannot invest directly in an index. Results for the Lipper indexes do not reflect sales charges. Lipper indexes track the largest mutual funds (no more than 30), represented by one share class per fund, in the corresponding Lipper category. Lipper averages reflect the current composition of all eligible mutual funds (all share classes) within a given category. There have been periods when the fund has lagged the index.

This illustration must be preceded or accompanied by the fund's current summary prospectus or prospectus, which details charges, expenses, investment objectives and operating policies. American Funds Distributors, Inc., member FINRA.

Investment results assume all distributions are reinvested and reflect applicable fees and expenses. Expense ratios are as of each fund's prospectus available at the time of publication. For American Funds Global Insight Fund and American Funds International Vantage Fund, the expense ratios are estimated. For the funds and/or share classes listed below, the investment adviser has agreed to reimburse a portion of fund expenses through the date(s) listed below, without which results would have been lower and net expenses higher.
