This report is not complete unless all pages, as noted below, are included. Please read the information in the 'Important Disclosures' found at the beginning of this report.

Investments are not FDIC - insured, nor are they deposits of or guaranteed by a bank or any other entity, so they may lose value.

Results shown may or may not show gross of advisory fees that may be charged by the client's investment adviser which would result in lower portfolio results than shown.

Important Disclosures

Figures shown are past results and are not predictive of results in future periods. Current and future results may be lower or higher than those shown. Prices and returns will vary, so investors may lose money. Investing for short periods makes losses more likely. If a sales charge had been deducted, the results would have been lower. For more current information and month-end results, visit capitalgroup.com.

Investors should carefully consider investment objectives, risks, charges, and expenses. This and other important information is contained in the fund prospectuses, summary prospectuses, ABLEAmerica Program Description and CollegeAmerica Program Description, which can be obtained from a financial professional and should be read carefully before investing.

Regular investing does not ensure a profit or protect against loss. Investors should consider their willingness to keep investing when share prices are declining. Market indexes are unmanaged and, therefore, have no expenses. Investors cannot invest directly in an index. Results for the Lipper indexes do not reflect sales charges. Lipper indexes track the largest mutual funds (no more than 30), represented by one share class per fund, in the corresponding Lipper category. Lipper averages reflect the current composition of all eligible mutual funds (all share classes) within a given category. There have been periods when the fund has lagged the index.

This illustration must be preceded or accompanied by a summary prospectus or prospectus for the fund(s) being offered. American Funds Distributors, Inc.

Investment results assume all distributions are reinvested and reflect applicable fees and expenses. Expense ratios are as of each fund's prospectus available at the time of publication.

Hypothetical portfolio results reflect a combination of the mutual funds shown, using the allocations and rebalancing frequency noted. The criteria and assumptions on which the portfolio is based are believed to be relevant to the likely financial situation and investment objectives of the intended investor. The portfolio's risks are directly related to the risks of the individual funds as described below. There are no guarantees that investment objectives will be met.

Class A shares are subject to an up-front maximum sales charge of 5.75% for equity funds, Target Date Funds, Retirement Income funds and most Portfolio Series funds, 3.75% for most fixed income funds and American Funds Tax-Advantaged Growth and Income Portfolio, and 2.50% for American Funds Inflation Linked Bond Fund, Intermediate Bond Fund of America, Short-Term Bond Fund of America, American Funds Short-Term Tax-Exempt

The sales charge declines for accounts and aggregated investments (\$25,000 for equity and target date funds, \$100,000 for most bond funds, \$500,000 for Intermediate Bond Fund of America, Short Term Bond Fund of America, American Funds Short-Term Tax-Exempt Bond Fund, and Limited Term Tax-Exempt Bond Fund of America). There is no initial sales charge on purchases of \$1 million or more. A 1% contingent deferred sales charge (CDSC) may be assessed if a redemption occurs within 18 months of purchase. Results on the following pages reflect deduction of the CDSC if the investment is \$1 million or more and a withdrawal is selected within 18 months of purchase. Certain withdrawals before age 59 1/2 may be subject to income tax and, if applicable, to a 10% federal penalty. For American Funds Global Insight Fund and American Funds International Vantage Fund, Class A shares were first offered on November 8, 2019. Class A share results prior to the date of first sale are hypothetical based on the results of the original share class of the fund, adjusted for typical estimated expenses. Please see capitalgroup.com for more information on specific expense adjustments and the actual dates of first sale.

- The A/529-A share 1, 5, and 10-year return for each fund is based on the MOP value.
- The "Average annual return on the investment" is based on the initial investment and the breakpoint chosen.

If the results shown on the following pages do not reflect deduction of an initial sales charge (i.e. they are at net asset value), please note that they would have been lower if the sales charge had been deducted.
